Personal Statement:
Having recently moved to the SW PA area, I attended the SWPONL Annual Educational Conference, leaving me excited to be a member and motivated to seek the position of Chair Elect. SWPONL is in a unique position to serve as *the* professional organization sought by nurse leaders, at all levels, for engagement, education, and advocacy. SWPONL can potentially expand membership while adding greater value to existing membership through the inclusion of nurse leaders in non-traditional practice sites, across the continuum. My professional platform reflects that inclusion, supporting all nurse leaders, in all settings. I am confident my skillset and passion for nursing leadership across the continuum would benefit the organization. Further, my experience as an appointed Board member of AONE (2014, 2015, 2016), active engagement at the state level with the Ohio Organization of Nurse Executives and the local level with the Greater Cleveland organization of Nurse Executives would be an asset to SWPONL.
